Social sciences

Project ideas

Analysis of different jargons in social circles
 Is everyone in Quebec made to live in the big city?
 Similarities between bulimia and anorexia
 Calculating performance levels at a surprise exam vs. a prepared exam
 Explaining the different colours of skin
 Discovering Quebec's archeological sites
 Learning about the diet of ancient people through their vestiges
 Developing exercises that help improve reading among children with learning difficulties
 Does music increase productivity?
 How is language used by a given culture?
 How do STDs change adolescents' sexual behaviour?
 High energy, hyperactive or lacking attention?
 Is it possible to be affected by the Moon?
 Examining the demographic impact of the genocide in Rwanda
 Is multi-tasking beneficial?
 Is it possible to identify the age of an artefact?
 The effect of music on delinquency
 Placebo effect and healing
 Quebec's urban sprawl
 Prehistoric man
 Mainstreaming: myth or reality within the context of education reform?
 Dependence as a societal problem
 Is psychological dependence possible?
 The Great Pyramid of Kheops
 The migration of native populations of the far north
 Can music affect an individual's stress level?
 Performance in relation to reaction time
 Phagotherapy
 Is rehabilitation profitable?
 Does violence lead to more violence?
 Is human cloning ethical?
 E-mail as a new form of communication
 Do socioeconomic factors play a role in violence?
 Gambling and compulsive gamblers
 Are stress levels higher under surprise or pre-planned circumstances?
 The phenomena of virtual friendships
 The profile of a criminal
 Are robots stealing jobs?

SCIENCE FAIRS	01	02	03	04	05	06	07
----------------------	-----------	-----------	-----------	-----------	-----------	-----------	-----------

- Does the Quebec education system favour girls over boys?
- Adolescents and anorexia
- Drivers' behaviour at intersections
- The conditions for applying the education reform to people in difficulty
- Scientific discoveries that have significantly changed our daily life.
- Cultural differences and the language that transforms them
- Factors that affect short-term memory
- Do boys and girls learn in different ways?
- European migrations and the destruction of North-American settlements
- How have communications among humans changed since the advent of the Internet?
- Are exam results similar under variable conditions?
- Are dreams really significant?
- Are IQ tests culturally based?
- Treasures of the Titanic
- The study of human health through the genetics of populations
- The evolution of Quebec civilization
- What rules determine people's behaviour in certain places (e.g. busses, waiting rooms, libraries)?
- Is there a link between violence and being a single parent?
- Are there functional differences between right-handed and left-handed people?
